## COURSE CONTENT

The Wood Badge curriculum is designed to help you learn and develop leadership skills to better serve the youth. Formal presentations, group projects, team exercises and outdoor activities are just a few of the teaching techniques that are used in Wood Badge. During the course, you will develop your personal vision and prepare a ticket (set of action plans) that will help you realize that vision.

## What is Wood Badge?

Wood Badge is the premier training program for all Scout leaders in the Boy Scouts of America. Wood Badge is designed to train adult volunteers using the latest leadership skills and techniques. It is a once in a life time training experience.

There are two parts to Wood Badge courses: The **first part** consists of six days (either two weekends Friday-Sunday or six days Monday-Saturday) of practical experience where you have the opportunity to learn skills and concepts that underlie the five themes of Wood Badge.

The **second part** is a plan to apply what you learned in the practical course. You will create and carry out a plan of action. When that action is complete, you earn the recognition, beads, neckerchief, and woggle that are the Wood Badge.
